MY BOOK™ DESKTOP HDD STORAGE

Product Features

Complete Backup

My Book desktop storage comes equipped with backup software² to help make sure your photos, videos, music and documents don't get lost. You can set it to run automatically to your schedule. Just pick the time and frequency to back up important files from your system.

With the power of the included software², you've got complete backup routine options to help recover data in the event of a computer virus, computer failure, or if you accidentally press "delete".

Password Protection with Hardware Encryption

The My Book device's built-in 256-bit AES hardware encryption with password protection helps keep your content private and safe. Just activate password protection and set your own personalized password using the included software².

Easy to Use

Ready to use with Mac and Windows[®] computers right out of the box, so you can start transferring files, saving your memories, and backing up right away. My Book desktop storage also comes with the software² you need to help protect your data.
